TITLE OERI Directory of Computer Tapes. May 1987 and Supplement. September 1987.
INSTITUTION Office of Educational Research and Improvement (ED), Washington, DC.
PUB DATE 87
NOTE 31p.
PUB TYPE Reference Materials - Directories/Catalogs (132)

EDRS PRICE MF01/PC02 Plus Postage.
DESCRIPTORS Adult Education; Computer Storage Devices; Elementary Secondary Education; *Library Surveys; *Longitudinal Studies; Magnetic Tapes; Postsecondary Education; Public Libraries; *School Surveys; Vocational Education
IDENTIFIERS *Machine Readable Data Files; *Mailing Lists

ABSTRACT

A brief, non-technical synopsis of computerized data tape files available from the library of survey data collected over the last 20 years by the U.S. Department of Education Office of Educational Research and Improvement's Center for Education Statistics is provided in this directory. The available data files are listed in the following broad areas: (1) elementary and secondary education; (2) higher education; (3) vocational and adult education; (4) libraries; and (5) longitudinal studies. Each entry includes the name of the survey data file, the years for which data tapes are available, and a brief description of the data. Ordering information is given for these tapes as well as for special tabulations and mailing labels, and an order form is attached. (MES)

Introduction

This Directory is published by Information Services (IS), a component of the Office of Educational Research and Improvement (OERI). OERI supports and conducts research on education, collects and analyzes education statistics, administers grant and contract programs to improve libraries and library education, and disseminates information to parents, students, teachers, school administrators, policymakers, researchers, the media, and others. The Information Services (IS) program coordinates the agency's external liaison activities and serves as the support group for other OERI components.

A major function of IS is to sell computerized data tape files from the library of survey data which OERI's Center for Education Statistics (CES) has been collecting for over 20 years. The entire IS library of computer tape survey files is available for public sales distribution. This Directory is designed to give a brief, non-technical synopsis of the major files available.

In addition to supplying copies of data files, special tabulations and mailing labels are also provided. Capabilities range from straightforward listings to complicated statistical analyses.

General inquiries regarding the availability, content, and specifications of any of these files should be addressed to:

U.S. Department of Education
OERI/IS/PID/Education Information Branch
555 New Jersey Avenue NW.
Washington, D.C. 20208-1325
1-800-424-1616

Questions regarding indepth information about the surveys, their processing, sampling techniques, data quality testing, etc., should be addressed to the appropriate subject-matter specialists. The phone numbers are:

Elementary and Secondary Education	357-6614
Higher Education	357-6354
Adult Education	357-6354
Libraries	
College and University	357-6372
Public	357-6372
Elementary and Secondary School	357-6325
Longitudinal Studies	357-6768
Vocational Education	357-6579

Technical questions regarding the computer processing of the data can be answered by calling the Information Systems and Media Services Branch at (202) 357-6522 or 357-6528.

Price and Ordering Information

Tape Prices

Each survey is sold as a unique data file. The basic price for a data file is $150. Additional files ordered at the same time are $50 each. At this price, the files will be stacked on as few reels as possible. Some large files have separate pricing. These prices are given in the file descriptions. Each annual collection for a multi-year survey is counted as a separate file.

All necessary documentation is included with each file. This includes: file layout, block size, number of records, explanatory narratives, survey forms and related studies.

Tape Technical Specifications

Standard copying procedures for these files produce 9-track tapes in 1600 or 6250 BPI using extended binary coded decimal interchange code (EBCDIC) or American standard code for information interchange (ASCII), with IBM Standard Labels (SL) or unlabeled.

OERI has Statistical Analysis System (SAS) files available for most files produced since 1976.

To Order Files

To obtain files, complete the order form included in this Directory. Please supply the appropriate purchaser information, tape specification and file names ("Survey Area" plus available academic year). For example:

FILE NAME	YEAR	COST (BASIC)
Earned Degrees Conferred	77-78	$150
Earned Degrees Conferred	81-82	$50
Public School Universe	81-82	$50
Private School Universe	76-80	$50
		Total $300

Check or money order for the full amount, payable to the "U.S. Department of Education," must accompany the order. Mail the order to:

U.S. Department of Education
OERI/IS/SSD/Information Systems and
Media Services Branch, Room 304-A
555 New Jersey Avenue NW.
Washington, D.C. 20208-1327

Most orders are mailed within 10 working days of receipt.

Using the Directory

Column Headings:

"Survey Area" is the name of the survey data file. The names in this column are used for ordering files.

"Years Available" refers to the academic year which extends from the fall of the calendar year through the summer of the next year.

"Description" contains the number of respondents, major variables, and, in many cases, a brief description of the survey itself.

Abbreviations:

LEA - Local Education Agency
ED - Department of Education
SMSA - Standard Metropolitan Statistical Area
CES - Center for Education Statistics
FTE - Full Time Equivalent
IPEDS - Integrated Postsecondary Education Data System (replaces HEGIS)

Elementary and Secondary

Survey Area	Years Available	Description
Public School Districts	1968-69 through 1986-87 (except 74-75)	This file includes name, mailing address, county, grade span, number of schools, and fall enrollment for approximately 16,000 public school districts. The data for enrollment and number of schools are from the previous year.
Public School Universe	1969-72 (4-yr summary) 1977-78 through 1984-85	This file includes name, address, district, high grade, low grade, school type, number of teachers, and pupils enrolled in over 86,000 public schools. Most survey years lack some elements which were not submitted by certain States.
Private School Universe	1970-71 1976-77 1976-80 (4-yr summary)	This file includes name, mailing address, school district, type, affiliation, enrollment, graduates, and classroom teachers, for approximately 23,000 private schools.
School District Finance	1967-68 through 1979-80	This file includes revenues, by fiscal year, from local, State and Federal sources; non-revenue receipts; expenditures, by type; capital outlay; debt service; and average daily attendance. The early surveys sample approximately 6,000 school districts. The 1976-77 and 1978-79 surveys cover all LEAs (approximately 16,000).
Merged Federal Files	1976-77 1978-79	This file combines data from the CES school district universe; Census of Governments survey of local government's finances; Office for Civil Rights elementary/secondary education civil rights compliance survey; Department of Education Section 437 State-administered Federal programs; Equal Employment Opportunity Commission elementary/secondary staff survey; equalized property value; and the National Institute of Education special tabulations of 1970 census data for school districts. This data file includes financial, students, staff, and population characteristics for the more than 16,000 school districts in the United States.
Census of Population and Housing 1980: File 1F	1980	Data for all school districts in the country (approximately 16,000), including county components of school districts, are contained in this file. It has complete count data on population and housing characteristics. The price is $250 for 1600 BPI tape and $150 for 6250 BPI.

Elementary and Secondary

Survey Area	Years Available	Description
Census of Population and Housing 1980: File 3F	1980	Data for all school districts in the country (approximately 16,000), including county components of school districts, are contained in this file. The data are based on sample estimates covering population, income, employment, education attainment, and housing characteristics. The price is $225 for 6250 BPI tape and $500 for 1600 BPI.
Master Area Reference File, (MARF) 3	1980	Identification of each block group and enumeration district used for tabulating 1980 Census data, with the school district in which it is located, are contained in this file. This file also includes selected population and housing counts. There are approximately 400,000 block-group and enumeration-district records. The price is $300 for 1600 BPI tape and $150 for 6250 BPI.
Master Area Reference File, (MARF) 4	1980	This file identifies each city block and enumeration district used for tabulating 1980 Census data with the school district in which it is located. It also contains selected population and housing counts. Approximately 2.5 million city blocks and enumeration-district records are included. The price is $450 for 6250 BPI tape. It is not available at 1600 BPI.
Table Print File	1980	This file contains approximately 40 pages of tabular summaries of all 1980 Census data for each local school district. The data is available only in printed form and by individual school district. Price is $60 per school district.
School District Non-Fiscal Data	1981-82 1982-83 1983-84 1984-85	This file includes name, number of schools, students enrolled, teachers, instructional aides, and administrative support staff in FTE of assignment for approximately 16,000 school districts.

Higher Education

Survey Area	Years Available	Description
Opening Fall Enrollment	1967 through 1985-86	Covered in this file is full-time, part-time, and full-time-equivalent enrollment, by sex, for undergraduate, graduate, unclassified, and first-professional degree and first-time freshmen students for about 3,400 schools. The 1976, 1978, 1980, 1982, and 1984 surveys contain the Office for Civil Rights (OCR) Compliance Report data. The OCR data includes the biennial collection of racial/ethnic enrollment data, by major field of study. (Racial/ethnic data for 1982 by summary only.)
Financial Statistics	1965-66 through 1984-85	This file presents current fund revenues, by source; expenditures, by function; physical plant assets, by type and value; indebtedness on physical plant; endowment revenues; and changes in fund balance for about 3,400 schools.
Physical Facilities	1971-72 1974-75 1978-79	This file includes number of square feet of physical plant space, by type of room, function of room, organizational unit, and instructional program. The 1978 survey is a random sample of approximately 700 schools, and includes data pertaining to Section 504 of the Rehabilitation Act of 1973—student housing for the mobility impaired, handicapped enrollment.
Residence and Migration	1972, 1975 1979, 1981 1984	This file covers first-time and new transfer student enrollment classifications, by residence status, home State, and sex, for about 3,400 schools.
Faculty Salaries	1971-72 through 1985-86 (No 1983-84)	Salary, tenure, and fringe benefits of full-time instructional faculty, by sex, rank, length of contract, and type of institutional unit for about 3,400 schools are covered in this file. The 1972-73 and 1976-77 surveys also collected the number of part-time, full-time, and non-faculty employees, by manpower resource category. The Privacy Act of 1974 forbids public dissemination of data on salary and fringe benefits for individuals and/or administrators. A suppression algorithm was used on data cells with fewer than 3 persons to create a public-use tape.

Higher Education

Survey Area	Years Available	Description
Earned Degrees Conferred	1968-69 through 1984-85	This file covers bachelor's, master's, doctor's, and first-professional degrees received in major disciplines and subfields, as well as degrees and awards received for less than 4 years work beyond high school, by sex, for about 3,400 schools. The 1976-77, 1978-79, 1980-81, and 1982-83 surveys contain racial/ethnic data within major disciplines. The number of subject fields was greatly increased starting with the 1982-83 survey.
Institutional Characteristics	1969-70 through 1985-86	This file includes institution name, address, telephone number, congressional district, type of control, level of offerings, type of programs, accreditation, and previous year's enrollment for about 3,400 schools. Data are comparable with those found in the Education Directory, Colleges and Universities, available from the Government Printing Office.
College and University Libraries	1968-69, 1971-72 1873-74, 1975-76 1976-77, 1977-78 1979-80, 1982-83 1985-86	This file includes resources, physical facilities, staffing patterns, salaries and wages, number of employees, level of educational attainment, current expenditures, and number of learning resource centers, for about 3,400 schools. Salary data cells for fewer than 3 persons are suppressed.
Adult and Continuing Education	1977-78 1979-80	This file is a sample of 484 reporting units. It covers non-credit activities in higher education institutions, by major academic and/or administrative unit; and number of non-credit registrations, by field of instruction.
Recent College Graduates	1974-75 1976-77 1979-80 1983-84	This file includes data from a national sample of about 16,000 bachelor's and 2,000 master's degree recipients a year after graduation. The emphasis is on the education and employment of graduates newly qualified to teach, and beginning teachers.

Higher Education

Survey Area	Years Available	Description
Postsecondary Student Aid Field Test	1985-86	This file provides data on financial aid and school costs on a sample of 3,774 students from 118 schools in the 1985-86 academic year. Records contain information from the student's school registrar's office records, the student financial aid office record, and the student questionnaire.
Directory of Postsecondary Institutions	1986	This file presents characteristics for 7,474 respondents of the 13,630 survey recipients. These characteristics include IPEDS identification control number, highest level of offering, enrollment, and tuition and required fees. Only the IPEDS identification number, name, address, and an assigned control code are available for the remaining 6,156 nonresponding institutions. NOTE: The Higher Education General Information Survey (HEGIS), which has been in place for 20 years, will be replaced by the Integrated Postsecondary Education Data System (IPEDS). IPEDS will cover all 13,600 postsecondary education institutions. The increase will be due to the inclusion of vocational and technical schools. The conversion schedule is: Fall 85-HEGIS only Fall 86-both directories Fall 87-IPEDS only, but colleges and universities will continue to be identified with the larger universe.

Vocational and Adult Education

Survey Area	Years Available	Description
Postsecondary Career School Survey	1973-74 1975-76 1977-78 1979-80 1981-82	This file includes name, address, parent institution; type of control, enrollment, by attendance status and sex; vocational programs and occupational fields; accreditation status; and Federal program eligibility for 9,300 active schools. Data compare with those found in the Directory of Postsecondary Schools with Occupational Programs.
Programs and Enrollments in Noncollegiate Postsecondary Schools	1980	This file contains data collected from 3 postsecondary education survey forms. It covers: (a) schools from the Postsecondary Career School Survey; (b) a sample of approximately 5,300 schools that includes program enrollment, charges, length and output, student racial/ethnic origins, age and sex, and staff, by sex and assignments; and (c) data for 62 correspondence schools.
Characteristics of Students in Noncollegiate Postsecondary Schools	1977 1979 1981	This is a sample file of approximately 6,800 students drawn from the Postsecondary Career School universe of schools. It includes age, sex, race/ethnicity, military status, previous vocational training plans, previous and current work experience, and future work plans.
Participation in Adult Education	1969 1972 1975 1978 1984	This file is a national sample of 58,000 households, conducted for CES by the Bureau of the Census as part of the Current Population Survey. It includes data on adult education participants, courses, providers, and financing.

Also See Adult and Continuing Education

Libraries

Survey Area	Years Available	Description
Public Libraries Universe	1973 1977 1981	This file covers the complete universe of approximately 8,000 libraries and includes name, location, population of area served, ED State code, and SMSA code.
Public Libraries (LIBGIS)	FY 1974 FY 1978 FY 1982	Stratified random sample of 1,349 public libraries in the U.S. and outlying areas. Includes name and location of service outlets, population of area served, number of volumes of books and serials stocked, circulation, number of interlibrary and bulk loans, number of positions filled by library staff, operating receipts, and expenditures during the fiscal year.

Also See College and University Libraries.

Longitudinal Studies

Survey Area	Years Available	Description
National Longitudinal Study (NLS) of the High School Class of 1972	1972 high school graduating class and 4 subsequent follow-ups through October 1979	Provides 3,524 variables on each of the sample 22,652 respondents. All data are contained in one data set. A 3-volume data user's guide serves as documentation and is sent with the tapes. The fifth follow-up was conducted during the spring of 1986 and should be available by summer 1987. The base-year segment contains: student personal family background; education and work experience; postsecondary plans, aspirations, attitudes; test results of verbal and nonverbal ability; and items from student high school records. Follow-up data (1973, 1974, 1976, and 1979) includes respondents' activity status, education and career plans, aspirations and attitudes. The price is $450 for 1600 BPI tape and $225 for 6250 BPI.
Student Codebook	Cumulative for all follow-ups	This list of variables, with their tape file locations (a machine-readable copy of appendix "O" of the student file user's manual), can be used to prepare control cards of variable labels for many different statistical software packages. This file is included with the NLS student file at no additional cost.
High School and Counselor Data	1972	This data file contains 504 variables from the high school file and counselor questionnaire responses. The data from the high school file can be linked to the data for the students attending each school. The file contains approximately 1,300 records. The 1972 school questionnaire gathered information on school organization and enrollment, course offerings, special services and programs, library and other resources, time scheduling, and grading systems. Counselor variables include workloads, counseling practices and facilities, experience with student financial aid programs, age, sex, race/ethnicity, training, and counseling experience.
School and Counselor Codebook	1972	This variable list, with tape locations (a machine-readable copy of appendix "B" of the school file documentation), can be used to prepare control cards. This file is included with the school counselor file at no additional cost.

Longitudinal Studies

Survey Area	Years Available	Description
FICE Codes	1972-79	This file contains the Standard Federal Interagency Committee on Education (FICE) identifying numbers for all 4,300 postsecondary institutions active in the 1972-79 period. (Appendix C.11 of the Student File Users Manual.) These can be used to link institutional data to the NLS-72 sample members who attend these institutions.
College Entrance Examination Board Institutional Data Base	1973-74	This file contains 84 variables on 4,139 postsecondary institutions (ordered by FICE code) from 4 sources: the 1973-74 *Higher Education Directory*, the 1973-74 tripartite Application Data File, the 1972-73 HEGIS Finance Survey, and the 1972 American Council on Education institutional characteristics characteristics file. These data can be linked to NLS-72 sample members by the common FICE codes.
NLS-72 Postsecondary Transcript File	1984	This file contains data on transcripts from NLS-72 senior cohort members who reported attending a postsecondary institution after leaving high school. A total of 19,033 transcripts reflecting the postsecondary education activities of 14,759 sample members were obtained and included in this file (some students had transcripts from more than one institution). The information recorded in the file includes: the major and minor fields of study, periods of enrollment, specific courses taken, credits earned, grades received, and credentials earned in 2-year and 4-year public and private vocational and non-vocational, foreign, and otherwise unclassified postsecondary institutions. The transcript files consist of 4 hierarchically-organized data files (student, transcript within student, term of attendance within transcript, and course level within term). The data are available as raw data and in SAS.

Longitudinal Studies

Survey Area	Years Available	Description
School District Census Data	1970	This file contains standard census data tabulated by 3,500 school district boundaries for districts in which NLS–72 sample members attended high school. These data can be linked to the student records by the common high school code number.
High School and Beyond (HS&B) base year	1980 (only)	This nationally representative data base contains data on sophomore and senior high school students from the class of 1980. All other HS&B data files (such as parent, school, teacher, transcript, twin, friends, offerings and enrollment, and local market indicators) can be easily merged with the student file. The base-year file contains information on 58,270 students, including personal backgrounds, education and work experience, postsecondary plans and aspirations, and verbal and non-verbal cognitive test scores. This file is $225 on 1600 BPI tape and $150 on 6250 BPI.
HS&B Sophomore Class of 1980, 1st Follow-up	1980, plus 1982 follow-up	This file expands the base-year file by adding 1982 data for the approximately 30,000 sophomores only. First follow-up students included those who (1) remained in the same school since their sophomore years, (2) transferred to another high school, (3) graduated from high school, or (4) dropped out of high school before spring 1982. This file is $225 on 1600 BPI tape and $150 on 6250 BPI.
HS&B Sophomore Class of 1980, 2nd Follow-Up	1980, plus 1982 and 1984 follow-ups	This file expands on the base-year and first follow-up file by adding 1984 (second follow-up) questionnaire data and composite variables for approximately 15,000 sophomores (these 15,000 students have high school transcript data). Postsecondary and work history variables are included on this merged file. The file is $225 on 1600 BPI tape and $150 on 6250 BPI.

Longitudinal Studies

Survey Area	Years Available	Description
HS&B Senior Class of 1980	1980 plus 1982 and 1984 follow-ups	This file expands on the base-year file by adding 1982 and 1984 follow-up data on approximately 12,000 seniors. It is similar to the Merged Sophomore file and includes post-secondary education and work history. This file is $225 on 1600 BPI tape and $150 on 6250 BPI.
HS&B School File	1980 plus 1982 follow-up	The School File contains school questionnaire responses that were provided by administrators in 1,015 public, Catholic, and other private schools. The questionnaire focused on a number of school characteristics including type and organization, enrollment, faculty composition, instructional programs, course offerings, specialized programs, participation in Federal programs, faculty characteristics, funding sources, discipline problems, teacher organizations (e.g., unions), and grading systems. This file contains the 1980 data and the 1982 update.
HS&B Language File	1980	The Language File contains information on each student who said he or she had experience in a language other than English. This file contains 11,303 records (sophomores and seniors combined), 42 variables for each student.
HS&B Teacher Comments File	1980	The Sophomore Teacher File contains responses from 14, 103 teachers on 18,291 students from 616 schools. The Senior Teacher File contains responses from 13,683 teachers on 17,056 students from 611 schools. At each grade level, teachers had the opportunity to answer questions about HS&B-sampled students who had been in their classes. The typical student in the sample was rated by an average of 4 different teachers. Preliminary analyses by CES indicate that the files contain approximately 76,000 teacher observations of sophomores and about 67,000 teacher observations of seniors.

Longitudinal Studies

Survey Area	Years Available	Description
HS&B Friend File	1980	The Friend File contains identification numbers of students in the HS&B sample who were named as being friends of other HS&B sample students. Each record contains the ID of sampled students and IDs of up to 3 friends. Linkages among friends can be used to investigate the sociometry of friendship structures, including reciprocity of choices among students in the sample, and for tracing friendship networks.
HS&B Local Labor Market Indicator	1980	The Local Labor Market Indicator File contains information on county, SMSA, and State indicators of labor market activity for the 1,015 high schools in the HS&B sample.
HS&B Offerings and Enrollment File	1982	The Offerings and Enrollment File contains information on course offerings and enrollment for most of the schools in the HS&B sample.
HS&B Secondary School Transcript File	1982	The Transcript File contains complete high school transcript information (including specific course information, such as: course name, grade received, year taken, and credits earned) for 15,941 students from the sophomore file.
HS&B Pell Grant File	1982	The Pell Grant File contains data for 2,916 HS&B seniors who were Pell Grant recipients between high school graduation in 1980 and the first follow-up survey in 1982. These data were derived from the Recipient History and Roster Master Files for school years 1980-81 and 1981-82 in the Pell Grant Information System. Only available in Statistical Analysis System (SAS) format.
HS&B Postsecondary School Transcript File	1984	This file contains data on transcripts from HS&B senior cohort members who reported attending a postsecondary institution after leaving high school. A total of 9,385 transcripts reflecting the postsecondary education activities of 7,776 sample members were obtained and included in the transcript data file (some students had transcripts from more than one institution). The information recorded in the file

Survey Area	Years Available	Description
		includes the major and minor fields of study, periods of enrollment, specific courses taken, credits earned, grades received, and credentials earned in 2-year and 4-year public and private vocational and non-vocational, foreign, and otherwise unclassified postsecondary institutions. The transcript files consist of 4 hierarchically-organized data files (student, transcript within student, term of attendance within transcript, and course within term). The data are available as raw data and in SAS.
Revised HS&B Parent File	1980 (Revised in 1984)	The revised Parent File contains questionnaire responses from the parents of about 3,600 sophomores and 3,600 seniors who are in the Student File. Each record on the Parent File contains a total of 307 variables. Data in this file include parents' aspirations and plans for their children's postsecondary education. The revised Parent File augments the original file with the addition of 22 analytically constructed variables, half of which are new measures of income and wealth. The remaining new variables enable analysts to delete observations which are out of range for one or more reasons. This replaces the file released in 1980.
HS&B Twin and Sibling File	1980	The Twin and Sibling File contains responses from sampled twins and triplets; augmented data on twins and triplets of sample members; and responses from siblings in the sample. This file (2,718 records) includes the same variables that are in the HS&B Student Base-Year File, plus 2 additional variables (family ID and SETTYPE-type of twin or siblings).

Computer Product Price List
Effective April 1, 1987

Product		Cost
Data files on tape		
First data set		$150
Additional set		50
Extra reels on large files		75

Special tape files	***1600 BPI***	***6250 BPI***
Marf 3	$300	$150
Marf 4	N/A	450
STF 1	250	150
STF 3	500	225
NLS Student	450	225
Statistical Analysis System (SAS)	500	300
HSB Student (where noted in the file description)	225	150

Mailing Labels	***One Set***	***Extra Set***
Colleges and Universities	$140	$ 50
Public Libraries	175	90
Occupational Schools	200	115
School Districts	215	140
All Public Schools	735	600
Public High Schools	215	140
All Private Schools	245	175
Private High Schools	150	65

Subsets of the above are available. Please call (202) 357-6528 or 6522, or 800-424-1616 for prices.

Tabulations

For a review of file specifications or for a price quotation, please call (202) 357-6522 or 6528, or 800-424-1616.

User/Uses Directory Information

Customers ordering selected files will be included in a User/Uses Directory. The purpose of the Directory is to understand how our data is used and permit a cross-dialog between users of similar files. Currently we are limiting the Directory entries to users of our Higher Education General Information Survey (HEGIS) and the 1980 Census of Population and Housing summarized to the public school district level.* If you do not wish to be included, check the appropriate block on the order form.

If you want to add or change information at a later date, please call (202) 357-6522, or 800-424-1616, or mail the changes to:

Department of Education
Office of Educational Research and Improvement
Special Services Division
Information Systems and Media Services Branch
555 New Jersey Avenue NW.
Washington, DC 20208-1327
Attention: User/Uses Directory

*For information on obtaining a copy of the separate publication, *Annotated Bibliography of Studies Using Data from High School and Beyond: A National Longitudinal Study for the 1980's*, please call 1-800-424-1616. In the Washington, D.C. metropolitan area, call 357-6651.

September 1987

Survey Area	Years Available	Description
ELEMENTARY AND SECONDARY EDUCATION		
State Summary of School District Finance	1983-85	This file includes State summary information for aggregate public school revenues, current expenditures, and average daily attendance, as reported by Local Education Agencies. The file contains data from all 50 States, the District of Columbia, and outlying areas for fiscal years 1983, 1984, and 1985.
State Summary of Non-Fiscal Data	1983-85	This file contains State summary non-fiscal data for all 50 States, the District of Columbia, and the outlying areas. Data include enrollment, by grade level; number of teaching, administrative and support staff; and the number of graduates in the previous year.
Private Schools and Teachers Survey	1985-86	These data were collected from a nationally representative sample of 1,174 private schools, and 5,295 private school teachers in winter and spring of 1986. School data, collected from the school administrators associated with the sample school, include information on: tuition, enrollment, minority enrollment, staffing, advanced placement programs, graduates applying to college, and use of aides and volunteers. Teacher data include information on training, experience, subjects being taught, assistance of aides and volunteers, teaching salary, working hours, additional employment, teachers' opinions, age, sex, and race/ethnicity. The tape permits linkage of teachers to the schools in which they teach.
Teacher Demand and Shortage	1983-84	This file contains data provided by the administrators of 809 private schools and 2,263 local and intermediate public education agency respondents. Data items include: headcount figures for position openings; positions unfilled; new and continuing certified and uncertified teachers employed; full-time-equivalent figures for employed teachers who were certified or uncertified within assignment field, candidate shortages, by subject area and instructional level; and

Survey Area	Years Available	Description
LIBRARIES		
Library Networks	1985-86	This file contains data collected from a stratified sample of 760 library networks. The data include: sponsorship, types of library participants, services provided, communication systems used, areas served, staffing patterns, and funds received, by source.
Public and Private School Libraries and Media Centers	1985-86	These data were collected from a national sample of about 4,000 public and 1,200 private schools. The public school data was augmented to provide estimates, by State. Media Center data, collected from school librarians, include information on library staff, expenditures, collections, services, usage, technology, and facilities. Ninety-three percent of public schools and seventy-five percent of private schools had media centers.
LONGITUDINAL STUDIES		
Military Personnel Records	1984-86	This file contains data extracted from personnel records for 1,750 of the 11,222 men in the NLS survey who enlisted, or applied, in the Armed Forces after high school. The file includes data on date of entry, branch, enlistment term, entry pay grade, Armed Forces Qualifying Test score, demographic measures, and educational attainment. It also contains career data such as current pay grade, military occupation, and reenlistment or separation status. This file can be linked to the student file.
HS&B Financial Aid (1980 Seniors)	1980-84	These files contain data on postsecondary financial aid experiences for academic years 1980-81, 1981-82, 1982-83, 1983-84. Data were collected from postsecondary institutions, the Guaranteed Student Loan (GSL) program, and the Pell Grant program. The number of seniors listed depends on the availability of the postsecondary school name or social security number of the student. The separate files are: **Student Sample File** contains demographic and other classifying data on about 12,000 seniors.

Survey Area	Years Available	Description
HS&B Financial Aid (1980 Seniors)--continued		**Financial Aid Records File** contains data from all identifiable postsecondary schools that students reported attending. **GSL Record Dump Extract File** contains GSL "tapedump" records for 3 Federal Fiscal Years (1982-84), corresponding to 3 academic years (1981-82, 1982-83, 1983-84). **Pell Grant Disbursement File** contains data from Pell Grant disbursement files for fiscal years 1981-84, corresponding to academic years 1980-81 through 1983-84. **GSL Guarantee Agency Disbursement File** contains GSL disbursements by participating agencies in the 4 academic years 1980-81 through 1983-84. **HS&B Postsecondary Education Events File** contains information about spells of postsecondary attendance from HS&B files for CES analysis. **SFA (Student Financial Aid) File** contains data on student financial assistance during postsecondary attendance from HS&B survey and financial aid files for CES analysis.

Survey Area	Years Available	Description
Teacher Demand and Shortage--continued		information on the use of merit pay plans and special incentives to recruit or retain teachers in critical areas. The file contains 3,540 records, including non-respondents. Records are weighted to permit national estimates.
Public Schools and Teachers Survey	1985-86	This file contains data from a national sample of 2,801 schools and 10,650 teachers. School data include information on enrollment, minority enrollment, staffing, advanced placement programs, graduates applying to college, use of aides and volunteers, use of computers, and incentive programs for teachers. Data collected from teachers include information on training, experience, subjects being taught, incentives, certification and endorsement, assistance of aides and volunteers, salaries, working hours, additional employment, age, sex, and racial/ethnic affiliation. The files permit linkage of teachers to the schools in which they teach.
HIGHER EDUCATION		
Earned Degrees Conferred	1985-86	This file contains records for 3,388 postsecondary institutions. See page 4 of the OERI Directory of Computer Tapes for additional information.
VOCATIONAL AND ADULT EDUCATION		
Classification System for Postsecondary Education Courses	1986	This classification system was developed in conjunction with CES's Longitudinal Studies Program. It is based on course listings in college catalogues from a sample of 60 postsecondary undergraduate and noncollegiate institutions. It expands upon the Classification of Instructional Programs (CIP), which divided courses into 50 major categories. This system uses an 8-digit code to differentiate between similar yet unique courses, whereas the CIP used a 6-digit code. There are about 21,500 courses in the file.
